The first day's sensational developments at the police investigation, and the prospect of more startling testimony at to-day's session, with the probability of a big addition to the growing official the crowd at the entrance of the Lexow the Superior Court this morning.

The number which had gathered in the corridors of the court-house as the court-room several times over, and eagerness with which they clamored for admission showed the intense inter-est which is taken by the public in the progress of the investigation.

Expect a Tenderloin Trip.

The fact that Mr. Goff had intimated his intention of speedily taking his longplanned excursion into the "Tenderioin" with this renewed interest. Such a turn fruitful field of inquiry, and the names of half a dozen high police officials, including Inspectors Williams and Mc-Laughlin, and Capts. Reilly, O'Connor and Schmittberger, were frequently mentioned as being likely to be brought into unpleasant prominence by the testimony of the witnesses who had been sum-

Father Ducey emphasized his defance of the Church authorities by again appearing in his customary place as an interested spectator of the proceedings, and to-day he had with him his old friend of the Methodist Church, the Rev. Mr. Gutteridge, of Newark. The latter says he was very sorry to miss yesterday's proceedings, they were so spicy, but he wa unavoidably detained in Jersey.

Among the spectators was Arthur H. Polien, an English barrister-at-law, from Lincoln's Inn, who, it is said, came to this country with Lady Henry Somerset's party.

Many Absent Witnesses.

Mr. Goff began by calling out the tames of a number of witnesses. There was no response from several of them, and a note was made of their absence, as they are good for Grand Jury

sence, as they are good for Grand Jury consideration.

While this was going on Street-Cleaning Commissioner W. R. Andrews came in smiling and greeted Senator Cantor and his colleagues at the far end of the row with great apparent cordiality. He had chalmed the right to yindicate himself from the charges made against him by ex-Chief Clerk Tomlinson, of the Excise Bord, who, with his wife, implicated the Commissioner in a very questionable transaction in connection with the Maisau Tortoni license.

They said that Mme. Chande, the proprietress of the place, had given them Essi to fix up her license after the Excise Board had refused to renew it, and that the money had been turned over to Commissioner Andrews.

DENIES HARRIS'S STORY.

Lexow Witness's Tale of Bribery. Police Justice Divver, in the Morrisania Court to-day, denied the charges made by Witness Harris before the Lexow Committee, that Divver's son James paid him to register illegally during the election of 1892.

"That man Harris is a lying blackmatter from start to finish," he said. "I never saw him to my knowledge and would not know him if I did see him. He has written as many as forty letters and postal cards asking my sor

letters and postal cards asking my son Jimmy for money, saying that if he did not yield to his demands he would expose him. He threatened to charge my son with every crime on the calendar.

"Jimmy showed me the letters and asked my advice.

"Don't pay any attention to him.' said I.

"The whole story is this: The day Harris was arrested he was drunk, and while in that condition signed a paper in the United States Court implicating my son in election frauds.

"Jimmy was arrested on the same day and placed under bonds. Harris remained for some time in Ludlow Street Jail, where I suppose the United States officials promised him his liberty if he would implicate Jimmy.

"The case was delayed until I forced my sons accusers to try him. Harris was brought to court and swore he could not identify Jimmy, and Judge Benedict instructed the Jury to find a vertict of not guilty."

When asked if he knew who the United States officials were who promised Harris his liberty. Divver stated that he did not know and that this was only hear-

"But Jimmy gave Harris \$10 that came from you."

"Yes, I gave Jimmy the money to give to Harris, because my son, said Harris wrote him a letter while he was in Ludlow Street Jali saying that he was in great distress. Jimmy suggested that clean clothes would not hurt him, and I said: Give the poor fellow \$10." That's all there is about that."

"Harris says you sent him up for two months on a charge of drunkenness?"

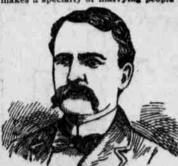

Divver laughed and seemed greatly amused.

Prebing Into Cases That Come from the Pelice Justices.

Attorney Fellows, comes from a part of the State where good citizens go to work shortly after daylight. He was in the old Criminal Court Building a quarter of an hour before 10.30 A. M. to-day, the time set for a continuation of the hear-

incition.

The witness, Mr. Unger, said he did not know of any record of the District-Attorney exercising his right to ask the Governor to call an extraordinary session of Oyer and Terminer.

Mr. Phillips, as an eye-opener for the day's proceedings, asked Mr. Unger if it was not true that papers in cases of persons held for the Grand Jury by police justices were received by the District-Attorney instead of by the Court, as the law prevides.

Mr. Unger answered yes, but claimed the District-Attorney simply acted as agent for the Court.

"And is it not true," asked Mr. Phillips, "that many cases thus referred by Police Justices are hot referred to the Grand Jury by the District-Attorney?"

This came as a bombshell in what had been uninteresting proceedings. It was met by Mr. McCurdy with an objection. He claimed the prosecutors should specify cases in the question. The Commissioner so ruled.

Mr. Phillips and Mr. Sutro argued against the ruling, but could not change the Commissioner's decision. They and mitted that they could name no specific instances, and looked somewhat creatfallen.

The admission was considered by spectators as evidence that the German-American Reform Union five had not sufficiently prepared their case.

Mr. Phillips went into an investigation of the methods of the professional bondsman, Charles L. Jashne, who was exposed by "The World."

Mr. McCurdy objected to any questions about the Jachne bonds, claiming that District-Attorney Fellows was not responsible. The questions were allowed, Mr. Phillips asked Mr. Unger about thirteen instances in which Jachne had been accepted as bondsman between Jan. I and Dec. I These amounted to nearly 40,000.

Mr. Myer was asked if steps had been taken to prosecute the person giving the name of Alfred Baskett, and who went on the bond of Edward Jones, giving as security the same property as did Eva Rapp on the bond of William H. Schooley:

After the thieves secured their plunder they jerked the coat from Smith's head, taking his hat with it, and sent him recling to the sidewalk.
